JASKEY LIMITED

Wireless Charger With LED Lamp

EG0207

Product Highlights

Wireless Charger With LED Lamp

Materials: ABS plastic

Functions： Support IPhone/Micro/Type-C

Wattage: 10W

Battery: 350mah

Input :9V /2.2A

Output : 9V /1.3A

Light Source:LED

Light Distance:1.5m²

Frequency response:100HZ-205KHZ

Conversion rate:73%

Charging port:Micro USB

Product size:7.5*5*6CM

Base electromagnetic induction

Induction magnet, can be used with our multi-function charger,
Let your life be more free

Multi-function charger

Apple/android/type-c three in one charging,
Technology to make life more
Simple, charge new upgrade

Apple's interface

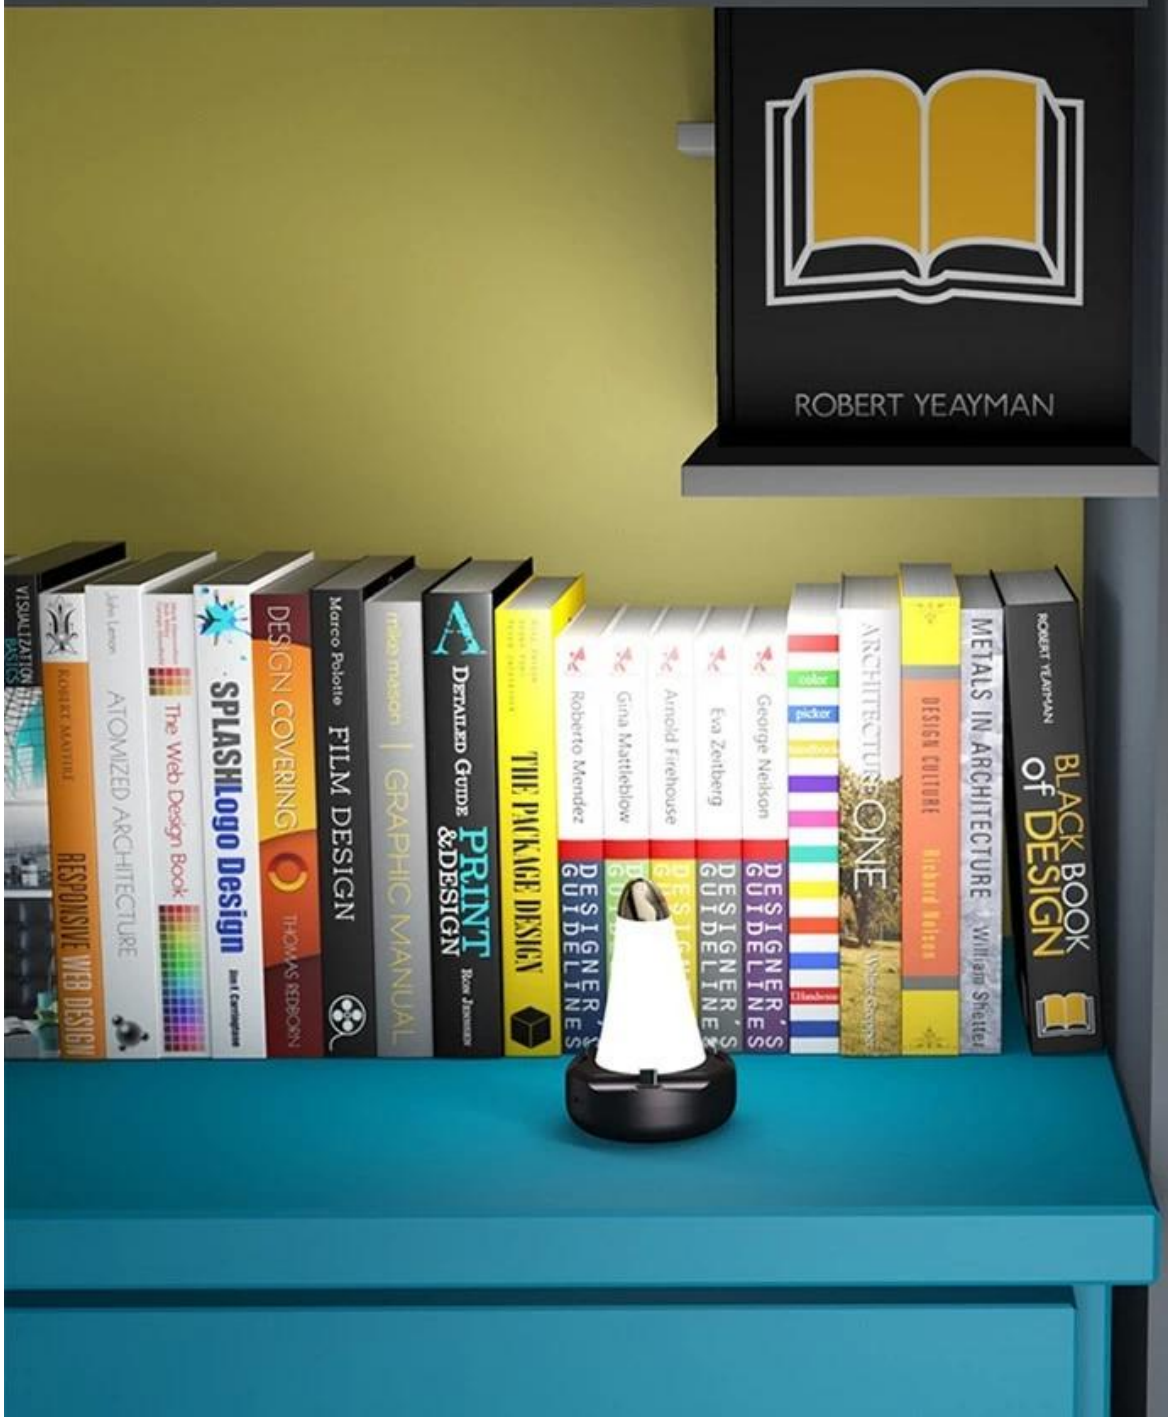
Type - C interface

Micro interface

Gently press the
Color temperature control
One key switch, color temperature
three color switch

Bright enough
Covering a wide effective lighting area

Cover 1.5㎡ azimuth effectively, make appropriate lighting
Brightness, all - around good light to meet your different lighting scene



Charge and use
Light yourself for a long time
Quick charge, slow life, is charge
Electrical appliances, also small lamp
