Wireless Bluetooth Speaker features

1, small size, easy to carry, cool appearance, trendy, personalized color, fresh and natural. Does not exceed the maximum dimensions of football, such as the minimum size of an egg;

2, set amplifier, battery, dual speakers in one, first patented technology "telescopic extension resonance chamber" to solve the mini speaker resonance cavity narrow problem, breaking decades of speaker appearance specification limits, compressed to the limit;

3, . not need long audio cable, no external power supply, whether it is fresh mountain stream-like rhythm, or the passion of DJ dance music, can vividly show up!

4, design concise, easy to use. Using a USB standard interface power supply and audio input, driver-free plug and play USB interface, fully compatible WINDOW 95 98 ME 2000 and XP operating systems. With 3.5mm stereo audio input interface links the notebook, desktop PC, mobile phone, PSP, Walkman, MD, Mp3, handheld computers, PDA, Mp4, video machines, iPod, mobile phones and other devices;

5, mini speakers by simply connecting a laptop, cell phones and other devices without power supply, can play wonderful music. Some speakers installed inside a large-capacity lithium battery, the product can play 5-8 hours of music. Dual power supply mode is more lasting.

6, portable performance for outdoor sports explorers, casual person, cycling outdoor sports, is also applied to computer PA, as a small computer speakers. In short, mini speakers playing a long time because of the small volume, external speakers sound great, unlike traditional MP3 need to bring earplugs, hurt eardrum, has been more extensive favorite! Especially the movement of small speakers, stereos and other bike!
